PERSONAL PROFILE

I AM A PROFESSIONAL WEB DEVELOPER & DESIGNER WITH 2 YEARS OF EXPERIENCE. I HAVE A DEEP INTEREST IN JAVASCRIPT, REACT, MONGODB AND NODE.JS. AS MY PROFESSION AND CAREER OBJECT, I WILL PROBABLY GIVE 100% DIFFICULT WORK AND EXACT SERVICE.

PROJECTS

❖ **Creative Agency** -A Service Selling Website(Full-Stack)/ Live Link/ Github Client/ Github Server

Technology: React, Node.js, MongoDB, Express.js, Firebase Auth, Bootstrap, Heroku

- Creating a dashboard that is used to view ordered lists, make an admin with email & add service with picture and displaying it on the UI from DB.
- Order page & admin dashboard are separated from users and admin.
- Users can place the order, give feedback & see only their ordered service list.
- Saving jwt token to the session Storage that can save user info after reloading.
- context API.

❖ **AnswarIt** -A Software firm(Full-Stack)/ [Live Link](#)/ [Github Client](#)/ [Github server](#)

Technology: React, Node.js, MongoDB, Express.js, Firebase Auth, Bootstrap, Material-ui, Sass, Pop-up, Heroku

- One can enroll in their course after giving the answer & it will show in the database.
- Bootstrap Carousel, conditional rendering, dynamic data rendering
- Sidebar with react-router, using Material icons.
- Admin gets data in the MongoDB
- context API.

❖ **Volunteer Network** -A Event Manger(Full-Stack)/ [Live Link](#)/ [Github Client](#) / [Github Server](#)

Technology: React, Node.js, MongoDB, Express.js, Firebase Auth, Material-UI, Heroku

- Users can register for the Event and see their own registered list and cancel the registered event.
- Admin can see all user's registered lists, delete the registration and add Event.
- Google Login, netlify hosting, context API.

❖ **Doctors Potal** -A Clinic Management system(Full-Stack)/ [Live Link](#)/ [Github----Client](#) / [Github Server](#)

Technology: React, Node.js, MongoDB, Express.js, Firebase Auth, Material-UI, Heroku

- Users can choose doctors and make an appointment, can see own appointment list by data
- Admin can add doctor
- React Calendar with custom design, React Hook Form, PopUp Dialog, custom select design
- Admin can view all patient's appointments, all patients, today's appointment.

WORKING EXPERIENCE ───────────

❖ **Web Developer at AnswarIT / FEB 2020 - present / (part-time)**
I was responsible for developing websites with React.js and WordPress. And I developed lots of projects for them with 100% satisfaction.

EDUCATION ───────────

❖ **Programming Hero**
Complete Web Development Course / JUN 2020 - DEC
